

Welcome to the game of Bean Bag Toss Cornhole.

Before starting the exciting game read ALL rules and regulations thoroughly.

Play anywhere, anytime, on the beach, on the grass, tailgating and even in your home.

OBJECTIVE:

The object of the game is to throw your bean bags into the holes for points.

Number of Players: 2 or 4 players

Contents:

- 2 targets
- 8 bean bags
- Locking system for easy transport and storage
- Grip handles make it convenient to carry.
- Game rules included

Preparing to play the game:

1. Ensure that the playing field is flat and clear of all obstructions.
2. The target structures should be approximately 20 feet (6 meters) apart from each other.
3. Ensure that there are no objects behind the target structure. If there is a wall behind the target structure, ensure that the wall has no windows or that the wall is composed of materials that could not be damaged by thrown bean bags.
4. 8 bean bags are used during the game, 4 of each color. Note: Colors may not be changed during the course of the game.

SAFETY RULES:

1. Always obey the safety rules.
2. Ensure that the playing field is clear of all obstructions.
3. **PLEASE SEE THE DIAGRAM FOR RECOMMENDED PLAYING FIELD CONFIGURATIONS.**
4. No person should be between a player and the target structure at any time.
5. All players and non-participants should always be attentive and observe the game at **ALL** times in order to avoid injury caused by misthrown bean bags and other such hazards.

How to Play:

1. Before beginning to play, read and obey the **SAFETY RULES.**

2. TO PLAY SINGLES, opposing players throw from the same end of the playing field, ensuring both feet always remain behind the playing structure while throwing.

DO NOT CROSS THE PATH OF THE BEAN BAGS WHILE IN PLAY.

- 3. Each player alternates throwing their bean bags (Player 1, Player 2, Player 1, etc.) until all the bean bags have been thrown towards the target structure.
- 4. After all bean bags have been thrown, the round is over and the points are tallied.
- 5. Once all the bags have been thrown switch ends and continue playing until one of the players has reached 21.

TO PLAY DOUBLES: A player from each team is **stationed A SAFE DISTANCE FROM THE TARGET STRUCTURE** at the opposite end of the playing field. After playing a round from one end, your partner will now play from the other end until one team reaches 21.

- 6. The recommended way to throw the bean bag is to toss it underhand and gently throw it in an arc toward the opposite target structure.
- 7. To determine who starts the game, one bean bag of each color must be thrown from one target structure to the other. The player with the highest number of points in one throw starts the game.

Vue de profil (joueurs = 👤)

Scoring for Cornhole:

1 point is awarded for each bean bag that stays on the target and 3 points are awarded for each bean bag that goes into the single hole of the target. There are no cancellations.

The game is won when one player or team reaches exactly 21 points.

The game is scored as such:

Example: If a player/team has 19 points and scores 3 points (22 total) the player must subtract the points from their current score. In this case, your new score would be 16.
