

Front cover and rear cover

This laser light can create best atmosphere for different environment, it is not for illumination. At night or some dark places, it will show perfect atmosphere to cover around 50 square meters room.

**STAGE ENTERTAINMENT,
IS PLAYING FROM A LIGHT.**

Remote Control Function

	Power switch		UV LED color only
	Motor stop		Red LED color only
	Strobe mode		Green LED color only
	Automatic mode 1, red and green laser light changes while Led light is always blue.		Blue LED color only
	Automatic mode 2, LED changes different color while Laser light is always red and green.		Red and Blue color LED only
	Automatic mode 3, LED changes color with JUMP while Laser light is always red and green.		Red and Green color LED only
	Sound active mode 1, The sound active sensor works in high level of sensitivity, light works immediately with some SOUNDS, and turn off immediately without SOUNDS.		Green and Blue color LED only
	Sound active mode 2, the motor works fast, If add some SOUNDS in the environment, Laser color and LED color changes cycling.		LED color changes automatically, press this button can also choose different led color.
	Sound active mode 3, the motor works slow, If add some SOUNDS in the environment, Laser color and LED color changes cycling.		Definite Time 1 hour, choose your love mode and press this button, light will work 1 hour only.
	There are 4 effects in this mode: 1.Red and green small laser patterns always working 2.Red small laser patterns+Green large pattern always working 3.Green small laser patterns+Red large pattern always working 4.Green large laser pattern+Red large pattern always working This mode can be matched with different LED colors		Definite Time 3 hours, choose your love mode and press this button, light will work 3 hours only.
	There are 2 effects in this mode: 1.Red Small laser patterns always working 2.Red large laser pattern always working This mode can be matched with different LED colors		Definite Time 6 hours, choose your love mode and press this button, light will work 6 hours only.
	There are 2 effects in this mode: 1.Green Small laser patterns always working 2.Green large laser pattern always working This mode can be matched with different LED colors		Definite Time 8 hours, choose your love mode and press this button, light will work 8 hours only.

Product Parameter

Laser diodes: Green laser diode 532nm*2, Red laser diode 650nm*2

LED diode: RGB 3IN1 + UV Led

Power supply: AC100-240V, 50/60Hz

Power adaptor: DC5V, 2A

Working environment: 10-40°C indoor

Preheat time: 2-8 minutes

Control mode: Manual, Remote control

Play mode: Automatic, Sound active, Strobe

Cooling system: Fan

Scan system: Precise motor

Safety Notes

This laser light is class 3B product, it is prohibits to expose the naked eyes directly to the Laser, otherwise it may injure the eyes.

It is prohibits to let the kids play this product. Before operate this laser light, every people must read the safety notes.

This product is used indoor only, IP20. Don't use it in Moist, overheat, dusty environment. It should be operating in a nice aerating environment, keep far away from flammability materials or liquid.

Please use the adaptor provided in the packing. If need to replace the adaptor, please refer to the product parameter. If need to extend the power cables, the extended cables' diameter must meet qualified requirement; please don't extend the cables too long, otherwise the adaptor will be broken easily.
