

Directions For N0682 Decorative Posable Bat With 8 ft Wing Span and Battery Operated LED Eyes

How to unfold the wings

How to fold up the wings

A & B. Unfold the left wing at the points shown in the above diagram.

C. Repeat the steps in A & B to unfold the right wing.

D. The battery box is located behind a velcro slit on the back of the Bat shown above. Open slit and remove battery box to turn on the LED light-up eyes.

E. The bat can be hung from the ceiling or wall as shown above.

Follow the steps below to fold up your Bat for easy storage.

A. Fold the left wing at the area marked with the circle as in the drawing above.

B. Fold the left wing again at the area marked with the circle back the opposite direction.

C. Repeat the above steps for the Right wing as shown in drawing C.

D. Now the bat will fit back in the original carton for easy storage.
